

100% Uptime Guarantee

Guaranteeing 100% availability ensures your business systems operate continuously all year around

Trust Bleuwire™ to Keep Your Systems Always Available

When your business systems fail, your business operations suffer. If your staff can't work and your Clients can't connect with you, productivity halts and revenue slows. Bleuwire™ makes sure that never happens when we host, monitor and manage your systems from our state-of-the-art data center. We stand by our promise, with an SLA that refunds the percentage of your fees to match the percentage of time you're systems are down.

▶ **Benefits**

▶ **Simple Promise**

When it comes to uptime promises, the term "n nines" refers to an uptime guarantee: for instance, 99.9999% is called "six nines." Six nines is good. No nines is better. We promise that - with the single exception of planned maintenance - your systems will be up and running 100% of the time.

▶ **Best SLA in the Business**

Bleuwire™ has as tough a Service Level Agreement as you'll find. Should your infrastructure ever go down, just let us know, and we'll refund the cost of any service we manage equal to the duration of the downtime. For instance, if your system availability for any period is 99%, we'll refund one percent of your fee. If it's 98% we'll refund two percent . . . and so on.

- ✓ Experienced Managed Services Provider
- ✓ State-of-the-art Operations Center with Cutting Edge Technology
- ✓ 24x7x365 Remote Help Desk and On-site Support
