Application Hosting

From standard productivity solutions to the most complex and specialized systems, your applications have to be up and running perfectly all the time.

Trust Bleuwire™ with All Your Applications

Take advantage of an application environment with enterprise-class performance, resiliency and redundancy, on a budget less than what you're probably paying today. Making sure your applications are properly installed, configured, secure and integrated is the surest way to eliminate downtime.

▶ **Benefits**

▶ **Run Your Applications on State-of-the-Art Infrastructure**

Let Bleuwire™ host your applications in our secure, modern data center. We'll make sure your servers, storage, network and more are always up to date and always best in class. That extends to the physical environment, too. Our data center environment is climate controlled and its physical and computer access tightly secured. It's managed around the clock by certified engineers, technicians and support staff.

▶ **Be Confident with Constant Monitoring**

Bleuwire™ monitors and manages the performance of every application 24/7/365. That includes the applications themselves, the systems that integrate them with your database and other applications, the network that it runs on, and the backup and storage systems where their data is stored.
