

## Backup and Disaster Recovery

**Catastrophic data losses can damage revenue, employee morale, and competitive advantage.**

### Trust Bleuwire™ to Safeguard Your Business

Companies have relied on tape backups or other internal systems for preserving information for decades. Today, those methods are as past their prime as paper files. They're expensive and unreliable. Failures are common. Security breaches are a threat. Unfortunately, businesses often don't realize the risks they run until the damage has been done. But with Bleuwire™ Backup and Disaster Recovery, you can guard against threats with a system that will work for your business - one that's easy to manage and suits your budget and business needs.

#### ▶ **Benefits**

##### ▶ **Efficient, Fail-Safe Routing**

A dynamically controlled Border Gateway Protocol (BGP) means you get smart, fail-safe routing of all your information. Performance is top-notch, and uptime is ensured. And with continuous monitoring of network performance, we maximize connection speed while minimizing latency. This optimization applies to offsite backups as well.

##### ▶ **Speed, Reliability, Scalability**

Using Tier 1 backbone providers and multiple gigabits of provisioned bandwidth capacity delivers maximum speed, reliability and virtually unlimited scalability. Increasing data growth is covered with petabyte storage potential on the backend.

- ✓ Accredited Managed Services Provider
- ✓ State-of-the-art Operations Center with Cutting Edge Technology
- ✓ 24x7x365 Remote Help Desk and On-site Support
- ✓ 24x7x365 Real-Time Network Monitoring
- ✓ Experienced, Certified Technicians and Engineers
- ✓ Dedicated Account Managers
- ✓ Predictable Monthly Cost, Scalable Level of Service
- ✓ Remote Resolution of Issues more than 90% of the Time
- ✓ Easy to Understand Graphical Reporting of Performance

## ▶ Meeting Compliance Requirements

Compliance requirements are rapidly changing and often burdensome. Don't worry - we're on top of them all so you don't have to be. Our expert team monitors the relevant criteria for your business environment and deploys solutions accordingly.

## ▶ A Least-Cost Model

One of the best features of working with Bleuwire™: you get up-to-date technology while enjoying the cost-saving benefits of effectively splitting the expenses with other businesses.

## ▶ Protect Against Problems. Recover Quickly If They Strike

Bleuwire™ Backup and Disaster Recovery makes it easy to safeguard your business information. Installation is simple and backups are automatic. Security is uncompromised, with maintenance handled by a dedicated group of professionals. The offsite storage system allows scalability and provides 24/7 file restoration.

## ▶ About Bleuwire™

At Bleuwire™, we don't think you should have to pay for services you don't need. That's why we offer a boutique approach to IT management so that you can select only the services that will benefit your company. The choice is yours.

## Powered by the Best in the Business
