

## Solutions for Education

### You Conduct the Class. We'll Take on the Tech.

Your teachers are striving to create the next generation of learning experiences for their students. Your IT staff is also working hard to make the most of your instructional technology investment. To give your staff the time and resources required to achieve your district's educational goals, you need an IT infrastructure that runs seamlessly. Bleuwire™ knows how to evaluate your educational organization needs and keep you at the head of the class.

Bleuwire™ has been helping school districts of all sizes, including public, private and for-profit institutions, meet their primary goals by providing a solid technology foundation. We offer managed services that overcome obstacles that prevent you from reaching your goals by connecting users through collaborative information and knowledge-sharing networks, while monitoring systems around the clock to reduce downtime and costs.

#### ▶ Challenges

From project management to networked collaboration, and from design and layout to social media, the IT profile of the ad agency is as broad as it is intensive. Bleuwire™ provides the experienced, committed expertise to establish and maintain the right mix of hardware, software, networks and data.

- ✓ Remote Resolution of Issues more than 90% of the Time
- ✓ Easy to Understand Graphical Reporting of Performance
- ✓ Reduces IT Operational Costs by up to 70%

## ▶ Rapid Deployment

Educational institutions must deploy applications and deliver student services at a rapidly accelerating rate.

## ▶ Meet Demands

Educational institutions must provide effective strategy, support and standardization to efficiently meet the demands of the many departments, schools and organizations that IT supports as part of their community.

## ▶ Differentiation

Educational institutions must compete with others, differentiating themselves in the market based on the services they offer to students.

## ▶ Meet Needs

Educational institutions must scale to meet expanding needs, often without a proportionate increase in budget for hardware, software and personnel.

## ▶ Reduce Costs

Educational institutions must reduce CapEx and OpEx costs, while maintaining the highest levels of security and privacy.

## ▶ Data Demands

Educational institutions must manage the day-to-day demands of the data center, while enabling an innovative, technologically-advanced environment for faculty and students.
